

Sinclair Broadcasting's decision to push politically motivated programming onto their affiliates is an unacceptable and blatant abuse of their privilege to use the airwaves free of charge and their obligation to serve the public interest. This is evidence that media should be decentralized and large media organizations should be discouraged. It's ultimately much more important that we see real people from our own communities and more substantive news about issues that matter in our communities.

Sinclair's actions show why we need to strengthen media ownership rules, not weaken them. Thank you.
